

Individual Assignment (Week 4) Forecasting with Netflix Revenue

- 1) Follow [these instructions](https://canvas.unf.edu/courses/130266/pages/individual-case-study-4-instructions-and-rubric) (<https://canvas.unf.edu/courses/130266/pages/individual-case-study-4-instructions-and-rubric>) to build out the necessary Excel file.
- 2) Return here and answer the questions below.
- 3) The assignment rubric is posted [here](https://canvas.unf.edu/courses/130266/assignments/1887590) (<https://canvas.unf.edu/courses/130266/assignments/1887590>).

What you will turn in

1. Answer the questions below using the results from your Excel file.
2. Upload your finished Excel file named **LastName_FirstName_Week4_Netflix.xlsx**

1 Multiple Choice 10 points

Which method is most likely to **lag behind** during a rapid revenue increase?

- ☐ Exponential smoothing with $\alpha = 0.8$
- ☐ Weighted moving average with heavier recent weights
- ☐ Simple 3-year moving average
- ☐ None of the above

Clear my selection

2 True or False 10 points

The smoothing constant α in exponential smoothing must always be between 0 and 1.

- ☐ True
- ☐ False

3 Multiple Choice 20 points

Using Netflix data, calculate the 3-year moving average forecast for 2007 (use 2004–2006 actuals).

2004 = 506.2 | 2005 = 682.2 | 2006 = 996.7

- ☐ 506.2
- ☐ 728.4
- ☐ 996.7
- ☐ 1,205.3

[Clear my selection](#)

4 Essay 15 points

Set up ES with $\alpha = 0.30$ and the first actual as the initial forecast.

- Paste or type your ES formula for the first row where ES uses both the prior **Actual** and prior **Forecast**.
- In 1–2 sentences, explain how $\alpha = 0.30$ affects responsiveness.

5 Matching 20 points

Match the business goal to the accuracy measure:

Minimize average error size

Heavily punish rare big misses

Express error as % for comparisons

Possible answers

⋮ MAPE

⋮ MSE

⋮ MAD

6 Essay 10 points

From your Netflix workbook:

- Which method and settings produced the lowest MAPE overall?
- Would you recommend a stable or responsive forecast for Netflix, and why? (2–3 sentences)
